

THE MILITARIZATION OF SPACE

This call is part of the Peace Summit - No to NATO! Madrid 2022 efforts. The exhibition will be hosted on the Peace Summit website and distributed as a digital catalogue, with all credits given to the participating artists. The comics will be made available to everyone organizing anti-NATO actions, exhibitions, conferences and campaigns.

COMIC CALL

What would it be like to talk to Alien Musk in one comic page? What kind of conversation would you have with him about the militarization of space and its consequences?

How to participate?

Information: Title of work, full name, country, organization (optional), social media handles (optional).

Submission format: One page (proportional to DIN system) with square vignettes in .tiff format and 300dpi – no watermarks.

Deadline: Wednesday, 1 June 2022

Submission: peacesummit2022@gmail.com

We invite you to imagine from dystopia, utopia, humor and critical thinking about the limits of war. The only constraint is the use of the comics medium.

No matter the technique used for the comic. No need to be a comic artist to participate! We will not select works based on technical skills. Everyone is welcome to participate!

After all, art, like land, belongs to those who labour on it – it belongs to the peoples who organizing anti-NATO actions, exhibitions, We invite you to imagine from dystopia, utopia, humor and critical thinking about the limits of war. The only constraint is the use of the comics medium. conferences and campaigns.

***Alien Musk** is a possible or probable character who believes that the galaxy is his to colonize with satellites, space junk and deadly weapons, all for the benefit of his evil companies. If this were real, it would be a scandal, wouldn't it?*

If you want to know more about this dystopia:
